Morning news summary

Global News

- **Trump signals further airstrikes on Iran won't be necessary:** US President Donald Trump said further US strikes on Iran may not be necessary and that Iran is "militarily, effectively over," signaling a potential de-escalation in the conflict after Republicans' midterm election losses highlighted its domestic political costs, Bloomberg reported. Trump said the US would maintain the status quo at the request of regional allies, while keeping forces "locked and loaded" in case military action becomes necessary. The comments came after a meeting with Mohammed bin Abdulrahman Al Thani, whose country has been mediating between Washington and Tehran, and added to signs of progress toward a potential agreement to end the conflict. However, Marco Rubio said on Sunday that negotiations had not been productive and the two sides remained far from a breakthrough.

- **Fed's Goolsbee says officials must address inflation failure:** Federal Reserve Bank of Chicago President Austan Goolsbee said policymakers need to tackle a potential overheating in the economy from the artificial intelligence build-out and a broadening of inflation pressures, Bloomberg reported. Speaking at a separate event Monday, Richmond Fed President Tom Barkin signaled his support for additional rate hikes, but expressed caution over the right pace. Fed officials left interest rates unchanged last month after raising them in September for the first time since 2023. Several officials speaking since the meeting have signaled more rate increases are needed. Median projections released by policymakers in September showed the majority of officials estimated that at least one more rate increase would be necessary this year to help cool inflation to their 2% target. Goolsbee pointed to a run up in the prices of services, which aren't closely tied to energy or tariffs, which has also driven up costs. The Chicago Fed chief does not vote on monetary policy decisions this year but will vote in 2027.
  Source: Bloomberg

- **Hormuz LNG traffic hits highest in October since Iran war began:** The monthly number of laden LNG tankers exiting the Strait of Hormuz rose to 31 vessels in October, the highest since the start of the US-Iran conflict and up from 23 vessels in September, according to S&P Global Energy data. Of the total, 23 vessels were loaded at Ras Laffan in Qatar and eight at Das Island in the UAE. Kpler data showed 42 LNG cargoes were loaded in October compared with 27 in September, while Ras Laffan's loadings reached 35 cargoes and more than 2.7m tons, the highest level since the conflict began. Exports from Das Island remained steady at seven loadings, unchanged from September.

- **China extends suspension of new rare earth controls until January:** China announced a two-month extension of export-control waivers that were due to expire this month, preserving part of a broader

deal agreed after a summit between Xi Jinping and Donald Trump, Reuters reported. China imposed export controls on certain rare earths in April 2025 and expanded them in October 2025 to cover additional rare earths, certain industrial diamonds and lithium battery technology, before pausing the measures for one year following a summit in South Korea in November 2025. The Ministry of Commerce said the waiver period will now run until January 10, as part of a broader suspension of trade countermeasures and tariffs while Beijing and Washington negotiate a longer-term trade agreement.
Source: Reuters

- **Chinese trade surplus tops $1 trillion for second time ever:** Bloomberg reported that China's trade surplus surpassed $1.0tn for the year despite imports rising 42.0% YoY in October, the fastest increase since 2021. Exports grew 35.2% YoY for a second consecutive month, while the monthly trade surplus narrowed to $105.3bn, the smallest since May. Through the first 10 months of 2026, China's trade surplus was nearly 9.0% higher than a year earlier, putting it on track for a second consecutive annual goods trade surplus above $1.0tn. Export growth has been supported by strong global demand for AI-related hardware, although imports have also risen sharply, with gains concentrated in a limited number of products.
Source: Bloomberg

- **Japan September household spending slumps amid bad weather:** Japanese household spending fell 6.8% YoY in September, worse than the 3.1% decline forecast by economists and the biggest drop since September 2020, marking a 10th consecutive month of decline, Reuters reported. On a seasonally adjusted basis, spending fell 2.8% MoM, compared with expectations for a 0.3% increase. A government official attributed the weakness partly to poor weather conditions, with Tokyo recording precipitation on every day of the month for the first time on record. The data will be among the factors scrutinized by the Bank of Japan as it weighs further rate hikes, with many analysts expecting the next increase as soon as December, despite real wages extending gains for a ninth straight month in September.
Source: Reuters

- **Bank of Japan debated need for faster rate hikes, October summary shows:** A summary of opinions from the Bank of Japan (BOJ)'s October meeting showed some policymakers calling for a faster pace of interest rate hikes after underlying inflation reached the central bank's 2.0% target, with one member arguing the next hike should be delivered "without becoming overly cautious," signaling the possibility of action at the December meeting, Reuters reported. However, several members warned against moving too quickly, citing soft consumption, uncertainty over AI demand and the need to assess the impact of previous rate hikes on growth. The BOJ kept its policy rate unchanged at 1.25% in October but declared victory in its battle to achieve its inflation target and flagged upside price risks, while Reuters economists expect the policy rate to rise to 1.5% in December.

- **Asian stocks climb as tech rallies, Oil extends drop:** Bloomberg reported that Asian stocks advanced, tracking gains on Wall Street as a rally in technology shares and a further decline in oil prices boosted sentiment. As of 09:18 AM GST, South Korea's Kospi index rallied 4.1%, Japan's Nikkei 225 index added 2.5%, Hong Kong's Hang Seng index rose 0.3% and China's CSI 300 index gained 0.1%. S&P 500 futures added 0.1% while Nasdaq 100 futures traded 0.2% lower during Asia trade. US stocks had their biggest rally in about seven months on Monday, with the Nasdaq 100 climbing 3.4% as a gauge of chipmakers surged nearly 7%. The yield on the US benchmark 10-year Treasury fell ~1bps to 4.87%. In commodity markets, spot gold fell 0.5% to $4,117 an ounce and spot silver lost 0.3% to $53.3 an ounce. In currencies, the DXY index traded unchanged at 101.64. The US dollar was up marginally against the Japanese yen at 157.98. The euro traded flat against the greenback at 1.122.
Bloomberg reported that oil extended declines from the lowest close since August after Trump said further strikes on Iran wouldn't be necessary. In Asia trade, Brent futures (January contract) declined 1.1% to $91.5/bbl, after slumping almost 6% in the previous session. WTI futures (January contract) traded 1.2% lower at $84.7/bbl.

Middle East & Africa News

- **CMA licenses 68 new companies in nine months:** H.E. Waleed Al Awadhi, CEO of the UAE's Capital Market Authority (CMA), said 68 new companies obtained licences from CMA during the first nine months of 2026, while more than 30 licensing applications are under review, state news agency WAM reported. The total number of licensed companies increased 43% YoY and accredited professionals rose 64%, while CMA continues to streamline licensing procedures, enhance digital services and strengthen regulatory standards. Domestic investment funds rose 94% YoY to 97, with assets under management increasing 30% to AED 28.6bn. Total trading value on ADX and DFM reached AED 408bn in the first nine months of 2026, with foreign investors accounting for 49% of trading value, while companies raised about AED 3.4bn through capital increases during the period.
  Source: WAM, Zawya

- **Abu Dhabi moves to ease peak power demand after electricity-saving trial**: Gulf News reported that Abu Dhabi Department of Energy (DoE) issued new rules for licensing energy aggregator companies following a demand response trial that reduced peak power demand by up to 401.0MW. The 2025 pilot project achieved an average load reduction of 251.0MW, compared with 106.0MW in 2024, with more than 30 entities participating across the emirate. The programme reduced peak-period electricity consumption by about 27.0GWh and avoided an estimated 4,000.0 tons of carbon emissions, while participants received bill credits through TAQA Distribution. The new framework aims to help manage rising electricity demand by enabling consumers to adjust consumption during peak periods and supports broader plans to use artificial intelligence and virtual power plants to improve grid flexibility.

- **Adnoc Drilling expands in Kuwait with $315m rig deal:** AGBI reported that Adnoc Drilling won a $315m contract to supply offshore drilling rigs to Kuwait, supporting the country's plan to increase crude production capacity from 2.6m bpd to 3.5m bpd by 2035. The company submitted the lowest bid in the tender issued by Kuwait Oil Company (KOC). The award is part of Adnoc Drilling's broader GCC expansion strategy, following its acquisition of an 80% stake in MB Petroleum Services in May and its agreement with SLB to acquire a 70% stake in its land drilling rigs business in Kuwait and Oman. Adnoc Drilling reported a 2.0% increase in revenue to $3.7bn and a 1.0% rise in net profit to $1.1bn in the first nine months of 2026.

- **Emaar unveils $3.27bn office district in Dubai Creek Harbour:** Emaar plans to develop a 300,000 sq m commercial and office district at Dubai Creek Harbour with a total investment of AED 12.0bn, as part of a wider development anchored by the proposed Dubai Creek Tower, Trade Arabia reported. The district will have direct access to two metro stations, Dubai Square, four hotels and three urban parks, and will serve a community planned to accommodate around 200,000 residents. The wider masterplan includes more than 200 residential towers, 75,500 homes, 15 parks, a 4.5-km waterfront promenade and a 600-metre urban beach, as Emaar seeks to position Dubai Creek Harbour as a major commercial and business hub.

- **Saudi business confidence remains upbeat at 55.5 despite October dip:** Citing GASTAT data, Arab News reported that Saudi Arabia's Business Confidence Index stood at 55.5 in October, down 1.1 points from September but remaining above the 50-point threshold that separates optimism from pessimism, indicating continued confidence among non-oil businesses. The index recovered from a low of 52.1 in March, when regional geopolitical tensions intensified, while the Riyad Bank Purchasing Managers' Index stood at 54.0 in October, signaling continued expansion in the non-oil private sector. The construction sector remained the most optimistic, with a Business Confidence Index of 56.1, supported by continued development activity under Vision 2030, while the industry and services sectors posted readings of 55.4 and 54.2, respectively.

- **Saudi chambers launch platform to attract foreign investors:** The Federation of Saudi Chambers has launched the International Business Concierge (IBC), a support platform designed to help international companies explore investment opportunities, establish operations and expand their presence in the Saudi market, Arab News reported. The initiative aims to help foreign companies move from initial investment interest to setting up and scaling their businesses in the Kingdom through an integrated range of services. The launch comes as Saudi Arabia seeks to strengthen its appeal to foreign investors, with FDI inflows rising to $35.5bn in 2025 from $7.5bn in 2017, while the total stock of FDI increased to $293bn from $134bn over the same period. The IBC will leverage the Federation's network of 103 business councils and 26 chambers of commerce to support foreign investors in establishing and growing businesses in Saudi Arabia.
  Source: Arab News

- **Saudi Arabia, Pakistan investors launch fund to boost trade, investment**: Reuters reported that a joint council of Saudi Arabian and Pakistani investors launched a private equity fund with an initial size of "multi-hundred million" as part of the countries' wider push to deepen two-way private sector trade and investment. Three-fourths of the fund will be invested in Pakistan, while the rest will be invested in Saudi Arabian projects, with the fund expected to expand based on opportunities across sectors. The launch comes as Islamabad and Riyadh deepen longstanding ties, especially in defense, amid few signs of a breakthrough in the months-long US-Iran conflict.
  Source: Reuters

- **Saudi EXIM Bank provides $11.5bn in credit facilities in 9M 2026:** The Saudi Export-Import Bank reported a 27.1% YoY increase in credit facilities to SAR 43.2bn through the end of September, compared with SAR 34.0bn during the same period in 2025, Arab News reported. The facilities included SAR 11.4bn in export financing disbursements and SAR 31.8bn in exports covered by export credit insurance. Small and medium-sized enterprises accounted for ~37% of the bank's clients. The bank said the growth reflects its strategy to support Saudi non-oil exports, enhance their global competitiveness and help exporters access new markets, while domestic non-oil exports rose 8.5% YoY in August to SAR 18.3bn.
  Source: Arab News

- **Omani investments abroad surge 14.9%:** Omani investments abroad rose 14.9% YoY to a record OMR 8.4bn by the end of 2025, driven by higher exposure to portfolio assets and transport-related activities, Muscat Daily reported. Portfolio investments remained the largest component, rising 16.1% to OMR 3.3bn and accounting for 39.5% of total overseas investments, while direct investments abroad increased 12.9% to OMR 2.5bn. Transport, storage and communications accounted for 62.6% of direct investments abroad, followed by manufacturing at OMR 659m. The UAE remained the largest destination for Omani direct investment at OMR 993m, ahead of Saudi Arabia and the UK. Income received from Omani investments abroad increased to OMR 116m in 2025 from OMR 29m the previous year, with interest income from other investments accounting for OMR 97m.

- **Bahrain banking on new trust law to attract wealthy families:** AGBI reported that Bahrain is reviewing a revised trust law aimed at attracting wealthy families, family offices and professional wealth managers as it seeks to compete with established wealth management centers such as Dubai, Abu Dhabi and Singapore. Proposed changes include removing the existing time limit on trusts, making Sharia compliance optional rather than mandatory, and introducing a regulatory framework for multi-family offices. The draft law would also clarify licensing requirements and dispute resolution processes. The move comes as Bahrain seeks a greater share of the family office market, with the UAE accounting for 53.0% of family offices in the Middle East and North Africa compared with 5.0% for Bahrain.
  Source: AGBI

- **Bahrain, Qatar sign MoU to strengthen transport and logistics links:** Arab News reported that Bahrain and Qatar have signed a memorandum of understanding to strengthen cooperation in land transport and

Classified : Public

supporting logistics services. The agreement covers road safety systems and regulations, technical standards and specifications, research into emerging sector trends, and the use of artificial intelligence and smart technologies to improve transport services. It also provides for exploring options to develop rail and road links between the two countries and connect them with the GCC Railway Project. The deal comes as GCC states step up efforts to improve cross-border transport links, with the planned 1,768-km GCC railway network reaching 55.9% completion in 2026 and full completion targeted for December 2030.

- **Egypt's annual core inflation slows, but currency weakness poses upside risks:** Egypt's annual core inflation eased to 13.1% in October from 14.1% in September, Zawya reported citing data from the Central Bank of Egypt. Annual headline inflation slowed to 12.0% in October from 12.8% in September, while the Consumer Price Index rose 0.06% MoM. However, the recent weakening of the currency, coupled with geopolitical tensions and higher energy prices, could put upward pressure on inflation. S&P Global Market Intelligence expects the central bank to remain cautious and maintain a tight monetary stance, likely keeping rates unchanged at its December meeting unless external price pressures and inflation expectations ease significantly. It expects average consumer price growth to moderate gradually through 2027 and 2028, creating scope for a data-dependent rate-cutting cycle in 2027.
Source: Zawya

- **Egypt's government debt rises 8.8% in Q1 2026:** Egypt's total government debt hit EGP 17.85T in Q1 2026, up 8.8% from EGP 16.4T in Q4 2025, Arab Finance reported citing official data from the Ministry of Planning and Economic Development. Gross domestic debt rose 7.1% to EGP 13.7T, with short-term domestic debt increasing 19.4% to EGP 12.2T and medium-term debt surging 45.9% to EGP 446.4bn. Long-term domestic debt fell 55.4% to EGP 989.1bn from EGP 2.218T in Q4 2025. Separately, the Institute of International Finance said Egypt's government debt rose to 79.7% of GDP in Q2 2026 from 78.3% a year earlier, exceeding the average debt-to-GDP ratio of 76.8% across emerging markets and 62.2% in Africa.
Source: Arab Finance, Zawya

- **Egyptian government orders departments to curb spending:** The Egyptian government ordered public departments to curb spending, postpone non-urgent expenditure and reduce energy consumption as the Iran war puts pressure on public finances, AGBI reported. Government departments must cut electricity consumption by 20.0% compared with the same period of fiscal year 2025-26, while fuel use for government vehicles must be reduced by at least 30.0%, with health and security services exempt. The measures come months after Egypt approved its largest-ever budget, with spending projected at EGP5.2tn and revenues at EGP4.1tn, as higher oil and LNG import costs increase pressure on state finances.
Source: AGBI

- **GCC signs railway pact as regional network nears 56% completion:** Gulf Arab states signed an agreement establishing a common operating framework for the GCC Railway Project, which is 55.9% complete and targeted to begin full operations by December 2030, Arab News reported. The agreement covers the interconnection of national railway networks, harmonization of technical specifications, operational compatibility, safety requirements and coordination among member states. The planned 1,768-km network will connect Kuwait, Saudi Arabia, Bahrain, Qatar, the UAE and Oman, facilitating the movement of passengers and goods across the six-member bloc. Passenger trains are designed to operate at speeds of up to 200 km/h, while freight trains will travel at 80-120 km/h.
