

First Abu Dhabi Bank PJSC - India Branch
(Incorporated in Abu Dhabi With Limited Liability)

BASEL III: PILLAR 3 DISCLOSURES AS AT 30 SEPTEMBER 2022
(CURRENCY: INDIAN RUPEES IN MILLIONS)

1. Scope of Application and Capital Adequacy

Qualitative Disclosures:

First Abu Dhabi Bank PJSC - India Branch ('the Bank') operates in India as a branch of First Abu Dhabi Bank PJSC, a banking entity incorporated and registered in Abu Dhabi.

Pursuant to the merger of the two Abu Dhabi-listed banks National Bank of Abu Dhabi PJSC (NBAD) and First Gulf Bank PJSC (FGB) with effective date of the merger being close of business of 30 March 2017, the combined bank retained NBAD's legal registrations and the brand name of "National Bank of Abu Dhabi".

With effect from 25 April 2017, National Bank of Abu Dhabi PJSC's name was changed to First Abu Dhabi Bank PJSC. The Bank had written to RBI for change of name under Schedule II to the RBI Act 1934 which got approved by RBI on 04 July 2017.

The Bank has only one branch in India as on September 30, 2022 located in Mumbai. The Bank does not have any subsidiaries in India nor any interest in Insurance Entities. Thus, the disclosures contained herein only pertain to the Bank.

a) List of group entities considered for consolidation

Name of the entity / Country incorporation	Whether the entity is included under accounting scope of consolidation (yes / no)	Explain the method of consolidation	Whether the entity is included under regulatory scope of consolidation (yes / no)	Explain the method of consolidation	Explain the reason for difference in the method of consolidation	Explain the reasons if consolidated under only one of the scopes of consolidation
Not Applicable						

b) List of group entities not considered for consolidation both under the accounting and regulatory scope of consolidation

Name of the entity/country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Regulatory treatment of bank's investments in the capital instruments of the entity	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
Not Applicable					

Quantitative Disclosures :

c) List of group entities considered for consolidation

Name of the entity / country of incorporation (as indicated in (i)a. above)	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	Total balance sheet asset (as stated in the accounting balance sheet of the legal entity)
Not Applicable			

First Abu Dhabi Bank PJSC - India Branch
(Incorporated in Abu Dhabi With Limited Liability)

BASEL III: PILLAR 3 DISCLOSURES AS AT 30 SEPTEMBER 2022
(CURRENCY: INDIAN RUPEES IN MILLIONS)

- d) The aggregate amount of capital deficiencies in all subsidiaries which are not included in the regulatory scope of consolidation i.e. that are deducted :

Name of the subsidiaries / country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Capital deficiencies
Not Applicable				

- e) The aggregate amounts (e.g. current book value) of the bank's total interests in insurance entities, which are risk-weighted :

Name of the insurance entities country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity / proportion of voting power	Quantitative impact on regulatory capital of using risk weighting method versus using the full deduction method
Not Applicable				

- f) Any restrictions or impediments on transfer of funds or regulatory capital within the banking group :

There are no restrictions or impediments on transfer of funds or regulatory capital within the banking group.

2. Capital Adequacy

Qualitative Disclosures:

The CRAR of the Bank 31.83% as computed under Basel III norms, which is higher than the minimum regulatory CRAR requirement of 9% plus capital conservation buffer of 2.50% taking total to 11.50%.

The Bank's capital management approach is driven by the desire to maintain an appropriate capital base and to maintain an adequate buffer in support of its business development and to meet the regulatory capital requirements stipulated by the RBI at all times. Implications of major business decisions on the Bank's capital position are taken into account by the India Executive Committee (India EXCO) of the Bank and the FAB Group, prior to implementation, in order to preserve the Bank's overall capital requirements.

The Bank's capital requirements are drawn up annually in conjunction with the financial budgeting exercise and approved by the FAB Group for implementation at the beginning of each financial year. The capital requirements take into account, inter alia, the Bank's strategic objectives and business plans and regulatory capital requirements.

First Abu Dhabi Bank PJSC - India Branch

3. General Disclosures

The India EXCO has overall responsibility for the establishment and oversight of FAB India's risk management framework and the India EXCO is assisted by two management committees, the Branch Risk & Compliance Committee (BRCC) and India Assets and Liability Management Committee ("India ALCO").

The Bank adopts the Group's three lines of defence risk management approach.

- The first line of defence is that all employees are required to ensure the effective management of risks within the scope of their direct organizational responsibilities.
- The second line of defence comprises the Risk Control Owners, supported by their respective control functions. Risk Control Owners are responsible for ensuring that the risks within the scope of their responsibilities remain within appetite. The second line is independent of the origination, trading and sales functions to ensure that the necessary balance and perspective is brought to risk/return decisions.
- The third line of defence comprises the independent assurance provided by the Group Internal Audit ("IA") function which has no responsibilities for any of the activities it examines. IA provides independent assurance of the effectiveness of management's control of its own business activities (first line) and of the processes maintained by the Risk Control Functions (the second line). As a result, IA provides assurance that the overall system of control effectiveness is working as required within the Risk Management Framework.

First Abu Dhabi Bank PJSC - India Branch
(Incorporated in Abu Dhabi With Limited Liability)

BASEL III: PILLAR 3 DISCLOSURES AS AT 30 SEPTEMBER 2022
(CURRENCY: INDIAN RUPEES IN MILLIONS)

General Disclosures for Credit Risk

Qualitative Disclosures

FAB India follows the Group Credit Policy and has also developed an India Credit Policy Addendum which covers all stages of the credit life cycle, viz. origination, assessment and measurement, pricing, approval, commitment, administration, operations, monitoring, reporting, remedial management and portfolio management. It addresses all the businesses of the Bank where credit risk is presently being assumed, in any manner.

The Policy provides a set of policies to establish and maintain the following including, but not limited to:

- An appropriate credit risk environment,
- A sound credit granting process,
- An appropriate credit measurement, monitoring and reporting process, and
- Adequate controls over credit risk, in all business segments at, both, the individual credit and portfolio levels. It also seeks to establish a common quality standard for the management of credit risk.

Risk rating system

The Bank uses an internal risk rating system to assess the credit quality of borrowers and counterparties. Each counterparty is assigned a rating, including classified accounts that are either watch list or non-performing. The risk rating system has 11 grades, further segregated into 23 notches. Grades 1-6 are performing, Grade 7-8 is Watch-list and Grades 9 - 11 are non-performing, each with a rating description.

Approach to Obligor Risk Rating: Credit Risk rating measures the creditworthiness, that is, the ability to repay debt, of an individual, a corporation or a sovereign in a consistent manner.

Based on the current rating landscape, 16 rating models have been developed to rate the corporate clients as depicted below. These models are further classified into Quantitative and Qualitative model.

Model performance and usage are monitored regularly by the Group and are reported to the Group senior management and risk committees. All models are subject to periodic in-depth reviews by the Group to ensure that they remain fit-for-use and appropriate to the underlying portfolio segment and geography.

The output of each model and scorecard is mapped to an internal rating scale. Each grade in the rating system is linked to a Probability of Default (PD) estimated using the Group default experience supplemented by data from external sources.

Sovereign and bank exposures are governed by the ratings from external credit rating agencies.

First Abu Dhabi Bank PJSC - India Branch
(Incorporated in Abu Dhabi With Limited Liability)

BASEL III: PILLAR 3 DISCLOSURES AS AT 30 SEPTEMBER 2022
(CURRENCY: INDIAN RUPEES IN MILLIONS)

Risk Monitoring

The Bank regularly monitors its credit risk in respect of all its portfolios at various levels. At the obligor level, the Bank has a process of periodic review of credit based on the internal rating grades. More frequent reviews are made for the weaker credits and less frequent reviews for the superior credits. The Bank conducts full reviews and renewals of all performing credits at least annually. Obligors with lower risk profile are monitored at lower frequency by business units, unless otherwise required, to evaluate the potential changes in credit worthiness and related impact on risk rating based on latest available financial and other relevant information. More frequent and focused monitoring for lower rated borrowers ensures early identification of potential impairments, if any.

The classification and impairment policy currently implemented by the Group classifies delinquent borrowers as Substandard, Doubtful or Loss in line with the guidelines laid down in the Central Bank of United Arab Emirates' (CBUAE) circular 28/2010. The Bank in India will comply with the Group policy as well as the RBI's Master Circular - Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to advances, dated July 01, 2015 and April 1, 2022. Currently there are no non-performing exposures.

In assessing the collective loss allowance, the Bank uses the charge of 0.4% (and other specified rates) of standard assets and credit equivalent of FX and derivative exposure as stipulated in the above RBI circular.

Watch-listed accounts are also monitored and reported to senior management. This category comprises accounts where either contractual principal or interest is past due or when the accounts show weakness in the borrower's financial position and creditworthiness and requires more than normal attention. Such weakness is specifically monitored to ensure that the quality of the asset does not further deteriorate. Currently there are no Watch-listed accounts.

The Bank monitors all excesses over limits. The monitoring reports are available to senior management and processes are initiated to realize and regularize such excesses, where outstanding.

The Bank monitors the existing portfolio based on country, industry and ratings. These portfolio reports are prepared periodically and tabled for review by senior management. FAB India's exposure to a particular industry / sector would be limited to a maximum of 20% of total advances with exceptions if any to be suitably ratified by India EXCO.

Quantitative Disclosures

a. Credit Exposures

Particulars	30 th September 2022
Fund Based*	22,347
Non Fund Based	22,248

Opening Balance	935.48
Provisions made during the year	2,083.62
(Write-offs) / (write back) of excess provisions	-
Closing Balance	3,019.10

4. Disclosures for Portfolios Subject to the Standardized Approach

Qualitative Disclosures

The Bank uses the External Credit Assessment Institutions (ECAI) approved by the RBI to calculate its capital adequacy for sovereigns, banks, and corporate counterparties. For all exposures to domestic corporates, ratings by the following ECAIs are to be considered in line with 5.8 of RBI's Master Circular on Basel III Capital Regulations dated April 1, 2022 - Brickwork Ratings India Pvt Ltd; Credit Analysis and Research Ltd; CRISIL Ltd; India Ratings and Research Ltd; ICRA Ltd; SMERA Ratings Ltd.

Claims on Indian banks and Indian branches of foreign banks will be risk weighted in line with the RBI's Master Circular on Basel III Capital Regulations dated April 1, 2022 based on the CET1 and applicable CCB ratio levels set out.

Ratings from Fitch, Moody's and Standard & Poor's are considered for risk weights for claims on foreign sovereigns, foreign public sector entities and foreign banks as set out in the RBI Master Circular.

The use of the ratings and mapping process will be in line with the RBI Master Circular.

Indorama - Term Loan	First pari passu charge on certain immovable and movable fixed assets with minimum FACR of 1.10x

Quantitative Disclosures

For credit risk portfolio under the standardized approach, the Bank had extended guarantee to Indian corporate obligor on the basis of counter guarantee from Bank's parent totaling to INR 3,363 million and accordingly Risk has been shifted to Head Office.

6. Securitisation Exposures : Disclosure for Standardised Approach

The Bank has not undertaken any securitisation and hence this disclosure is not applicable.

First Abu Dhabi Bank PJSC - India Branch
(Incorporated in Abu Dhabi With Limited Liability)

BASEL III: PILLAR 3 DISCLOSURES AS AT 30 SEPTEMBER 2022
(CURRENCY: INDIAN RUPEES IN MILLIONS)

7. Market Risk in Trading Book

Qualitative Disclosures

Market risk is the risk that the Bank's income and / or value of its financial instruments will fluctuate adversely because of changes in market factors such as interest rates, foreign exchange rates, and equity, commodity and option prices.

Market Risk at the Group is managed as per the Group Market Risk Policy Framework, which includes specific guidelines on roles and responsibilities for management of Market Risk, its Governance Structure, Market Risk appetite statement and the limit structure. It specifies the way market risk is identified, measured, monitored, controlled and reported.

The Bank monitors market risk sensitivity (DV01), net open position and Value-at-Risk (VaR) using historical simulation based on a 99% confidence level and assumes a 1-day holding period using market data from the previous two years.

The Bank segregates all its positions in either the Trading Book or Banking Book.

Quantitative Disclosures

Particulars		30 th SEPTEMBER 2022
Capital requirements for market risk :		1,890
* Standardised duration approach;	- Interest rate risk	1,688
	- Foreign exchange risk (including gold)	202
	- Equity risk	-

8. Operational Risk Mitigation

Operational risk is identified as the risk of losses (direct, indirect & near misses) resulting from inadequate or failed internal processes, human behavior, systems, or from external events.

The Bank has adopted the Group Operational Risk framework consisting of policies and procedures to assess risks (i.e. to identify, assess, monitor, control, report) and to manage incidents (i.e. to notify, identify and rectify incidents). The Operational Risk framework also provides the interrelation with other risk categories. Where appropriate, risk is mitigated by way of insurance.

The primary responsibility to ensure that risks are managed and monitored resides with the businesses, as the 'first line of defence'. The businesses are supported by the risk function as the 'second line of defence' to ensure robust risk management. Further, reviews are to be conducted by Group Internal Audit as the 'third line of defence'.

First Abu Dhabi Bank PJSC - India Branch
(Incorporated in Abu Dhabi With Limited Liability)

BASEL III: PILLAR 3 DISCLOSURES AS AT 30 SEPTEMBER 2022
(CURRENCY: INDIAN RUPEES IN MILLIONS)

Key components of the FAB Operational Risk framework and policies include:

- Conduct of risk and control assessments (RCSA) and incorporation of action plans for any gaps as well as the development of a risk profile
- Monitoring of risks by regularly measuring key risk indicators (KRI)
- Reporting and managing operational risk incidents on a timely basis including any mitigating measures

Incidents are recorded in the Incident Management Module in Archer. Archer is managed by Group Operational Risk Management (GORM).

9. Interest Rate Risk in the Banking Book (IRRBB)

Qualitative Disclosures

The Banking Book exposure is defined as all other exposures that are not defined as Trading Book positions. This includes both on and off-balance sheet positions. Financial instruments held under the Banking Book are considered as investment positions.

The Banking Book operations generate non traded market risk primarily through interest rate risk arising from the sensitivity of the value of financial instruments and the net interest margin to changes in interest rates. The Bank manages this risk principally through monitoring interest rate gaps and by matching the re-pricing profile of assets and liabilities.

Earning at Risk and Market Value of Equity computations are carried out and tabled at the ALCO meetings. Limits for MVE has been implemented to facilitate monitoring.

Quantitative Disclosures

The impact on market value of equity for a 200 basis upward move on banking book across time horizons as of 30th September 2022 is decline in value by Rs. 508 million (i.e., 2.52% of Equity)

EaR is the loss of income under different interest rate scenarios over a time horizon of one year i.e. loss in income due to change in interest rates at the time of maturity / re-pricing of assets and liabilities within one year. The impact is detailed below:

EaR for 1 year horizon under different Interest Rate scenarios (Banking Book):	Amount in Rs. Millions
-300bps	(37)
-200bps	(25)
-100bps	(12)
+100bps	12
+200bps	25
+300bps	37

10. General Disclosure for Exposures Related to Counterparty Credit Risk

Qualitative Disclosures

The Bank follows the Current Exposure Method (CEM) of computation of counter-party credit exposure set out in RBI's Master Circular on Basel III Capital Regulations dated 01 July 2015 and April 1, 2022. The CEM requires the aggregation of the potential future exposure using the product/tenor wise credit conversion factors and positive MTM to arrive at the exposure at default. Customer exposure limits are set using the counter-party credit risk process and approval authorities.

It is the Bank's preference to execute Credit Support Annexes (CSAs) and there are detailed policies regarding the requirement of CSAs and management of collateral.

The Group has established a process for managing CVA. The Group calculates CVA using the add-on methodology at a transaction level and at the counter-party level. The CVA is effected at the FAB Group level. In case of larger value transactions, the CVA is accounted at the transaction level

The impact of wrong-way risk is considered while approving counter-party limits/transactions.

Quantitative Disclosures
